

Invest in Aerospace Brazil

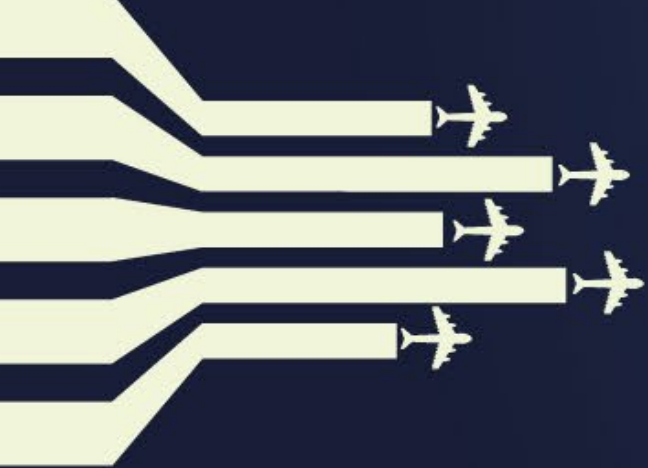

Welcome to the Brazilian Aerospace Industry

The Brazilian Aerospace Industry has a traditional role at both national and international levels. Given the advanced technologies associated with the sector, high investments have provided a favorable environment that encourages new partnerships in the country. According to recent studies held by Apex-Brasil, the Brazilian Aerospace Industry presents five subsectors with potential and competitiveness to receive foreign direct investments:

- ✓ **Machines and equipments**
- ✓ **Electronic Systems and components**
- ✓ **Engine Systems and components**
- ✓ **MRO**
- ✓ **R&D**

WHY INVEST IN THE BRAZILIAN AEROSPACE MARKET?

Invest in Aerospace Brazil

ABOUT THE PROJECT

The expansion and strengthening of the Brazilian Aerospace Industry and presence of global players are strategic factors to increase the international competitiveness of the Brazilian aerospace sector.

To facilitate interaction and business between Brazilian and foreign companies, a portfolio of companies / investment opportunities in the Brazilian market will be created, with focus on establishing partnerships such as JV, M&A and tech partnerships.
